STORAGE TANK

Cutaway view of bottle cooler showing arrangement of water storage tank with refrigerant coils wound around outside.

PRE-COOLER

Showing how Fedders pre-cooler used on most Bubbler Models is instantly accessible for easy cleaning with bottle brush.

TOP PLATE

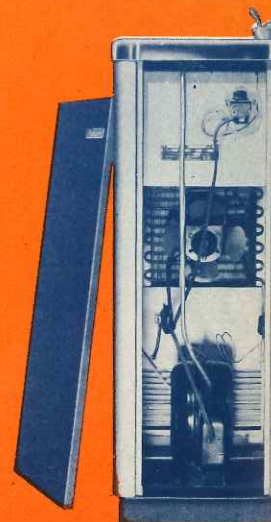

Splash-proof, one-piece sanitary design. Easy to keep clean. Bubbler is heavy, solid brass, chrome plated. Positive push button operation. Automatic water pressure adjustment insures proper water stream height. Meets sanitary codes. Angle of stream permits filling individual cups and glasses.

Model 3F-4 is ideal
for small offices and shops.

Save time — locate water coolers close to busy
workers . . . refreshed workers
are better workers.

OVER 50 YEARS

Fedders-Quigan engineers have been working miracles with heat and cold since 1896. Fedders-Quigan is one of America's largest and oldest manufacturers of Electrically Refrigerated Water Coolers. We have been building Electric Water Coolers for 17 years and thousands of the first models are still in service today in all climates in all parts of the world.

The list of users . . . the Who's Who of American Business and Industry is a splendid endorsement of Fedders dependable performance . . . you, too, can depend on Fedders performance.
